Orleans Parish Medical Society

REPORT

OF THE

BOARD OF ADMINISTRATORS

OF THE

CHARITY HOSPITAL

TO THE

GENERAL ASSEMBLY OF THE
STATE OF LOUISIANA

1912

NEW ORLEANS

Marble Tablet in Main Hall of Hospital.

THE
CHARITY HOSPITAL
OF LOUISIANA
WAS FOUNDED IN THE YEAR 1786
BY
DON ANDRES ALMONASTER Y ROXAS,
To whose generous endowment, the munificence of the
LEGISLATURE OF THIS STATE,
and the liberality of the State of Pennsylvania, the community is indebted for the
means of erecting this edifice, built in the year
1832,
His Excellency, A. B. Roman, being Governor and Ex-Officio President
of the Institution

To record which and inscribe hereon the names and contributions of its
distinguished benefactors

THIS TABLET HAS BEEN ERECTED.

Etienne Bore	\$1,000.00	Medical Faculty Tu-	
Robert Cune	1,000.00	lane University	3,000.00
Julien Poydras, Real Estate	35,000.00	Robert Jackson	1,000.00
Nancy Davenport	500.00	W. T. Richards	72,300.00
Eugene McCarthy	600.00	Mrs. H. B. Ringrose	5,000.00
R. G. Taylor	523.00	Mrs. D. A. Milliken	
Charles Schmidt	500.00	Mrs. Julie Ziegler	1,000.00
John Burnside	10,000.00	Miss Louise Curta	1,000.00
Charles Macready	1,500.00	Miss Angele Langles	1,000.00
Mrs. Emma Ingram, Real Estate	4,000.00	Arthur Isnard	500.00
Stephen Henderson, Cotton Press prop'y..	45,000.00	Italian Colony and Duke D'Abruzzi	1,000.00
R. Y. Charmbury	1,000.00	Albert Derbigny	2,500.00
Jules Cassard	3,000.00	A. C. Hutchinson	50,000.00
Caroline E. Simms	500.00	William Smith	875.00
P. B. O'Brien	2,000.00	J. A. Vignaud	500.00
Mrs. Julia Breen	1,000.00	Sarah J. Young	1,710.00
Charlotte Piffet	1,800.00	Isaac Delgado	180,000.00
Jean Ferran	3,000.00	Mrs. Sam'l Delgado	20,000.00
Pierre Claude Samory	1,500.00	Mrs. Caroline S. Til- ton	
V. J. Wood	500.00	Manuel Abascal	1,000.00
Wm. H. Letchford	1,000.00	Graduate Nurses, Class of 1910	500.00
Thomas Smith	2,500.00	F. T. Howard	10,000.00
Jean F. Schweitzer	20,000.00	Dr. J. L. Sexton	500.00
Robert Moore	5,000.00	Widow J. Hy. Boiman	1,000.00
Thomy Lafon	25,600.00	Noémie Victoire Bru- gier	500.00
A. M. Miles, M. D.	10,000.00	Hippolyte Garrott	500.00
N. O. Polyclinic	1,000.00		

INSIDE COURT VIEW OF CHARITY HOSPITAL, WITH OFFICERS, SISTERS, PUPIL NURSES AND EMPLOYEES.

BOARD OF ADMINISTRATORS.

HIS EXCELLENCY, LUTHER E. HALL, EX-OFFICIO PRESIDENT.
FRANK B. HAYNE, VICE-PRESIDENT.

J. B. SINNOTT, CHAS. A. FARWELL,
WM. E. STAUFFER, J. P. BLAIR,
ARSENE PERRILLIAT, EDGAR B. STERN,
ORLOFF LAKE.

FINANCE COMMITTEE.

J. B. SINNOTT, CHAIRMAN.
WM. E. STAUFFER, EDGAR B. STERN.

HOUSE COMMITTEE.

CHAS. A. FARWELL, CHAIRMAN.
ARSENE PERRILLIAT, ORLOFF LAKE.

MEDICAL COMMITTEE.

J. P. BLAIR, CHAIRMAN.
CHAS. A. FARWELL, FRANK B. HAYNE.

EXAMINING COMMITTEE.

FRANK B. HAYNE, J. P. BLAIR,
DR. S. W. STAFFORD, DR. J. A. DANNA,
DR. C. G. COLE.

HOSPITAL OFFICERS.

DR. J. A. DANNA	House Surgeon
DR. S. W. STAFFORD	First Assistant House Surgeon
DR. C. G. COLE	Second Assistant House Surgeon
L. P. DELAHOUSSAYE	Secretary and Treasurer
DR. M. COURET	Acting Pathologist
JOS. P. WALKER	Chemist and Druggist
JAMES R. LEAKE	Clerk
JOHN PONDER	Engineer
EDWIN BELDEN	Assistant Engineer
R. G. PLEASANT	Attorney General

RESIDENT STAFF.

From May, 1911, to May, 1913.

Annual Report of the Vice-President, **FRANK B. HAYNE.**

To His Excellency, Governor Luther E. Hall:

I beg to submit the following digest of reports that have been presented to me by Officers and Committees for 1912.

The income for this Institution for 1912 was \$229,427.03; cash receipts \$320,008.67; total funds including cash on hand and Special Fund, \$349,387.11. There are \$12,278.07 of outstanding bills yet to be paid.

Disbursements during the year were \$261,787.69, an increase of \$36,499.77 over 1911. The income being \$229,427.03 and expenditures \$261,787.69, the deficit amounted to \$32,360.66. Of this deficit \$25,500 was loaned from the Special Fund and should certainly be returned, as the Special Fund is now almost exhausted. This Special Fund is derived from donations and legacies and should be used only for improvements and not for the running of the Hospital.

The last Legislature increased the appropriation for this Institution \$36,000, less, however, \$5,000 formerly given for the care of the Tuberculosis Wards. From some of the fluctuating sources of revenue, such as auction sales, licenses, gate fees, etc., the increase over 1911 was \$99,996.92. There is a decrease, however, in the Pasteur Department, Legacies and so forth.

It appears, however, that in spite of the increased appropriation by the Legislature and a better revenue from fluctuating sources, the Hospital is in a little worse financial condition than it

was last year, the deficit amounting to \$32,360.66 against \$27,644.19 on the 31st of December 1911. Therefore, it is apparent from these figures that the Institution either has to receive a larger appropriation from the Legislature, or it must be run on a more economical basis.

With the patients remaining over January 1st, 1912, and the admissions, there were treated during the year, 13,894, about 763 more than in 1911. Leaving out epidemic years, this is the largest number ever recorded. Of the admissions, 7838 were white and 5145 were colored. Of the white adult, males 4400; females, 2135; boys 738; girls 565. Of the colored adult, males 2986; females 1794; boys 216; girls 149. The deaths numbered 1632, more by 97 than in 1911. The gross death rate was 11.75%, and the net, leaving out subjects for coroner's inquest, of which there were 232, and other deaths within 24 or 48 hours, reduces the percentage to 7.9%. In the white and colored maternity service there were 411 obstetrical cases and 417 births, with a maternal mortality of 3%. The ambulance calls numbered 2,242; surgical cases brought by ambulance, 1,347. The total number of accident cases, 11,106. Operations performed in Miles Amphitheatre, 2,765; in the Delgado Memorial, 1,838. Total number during the year, 4,603. In the out-clinics 23,203 were treated, and 109,798 consultations given. Prescriptions filled by the Chemist 60,000. In the Pathological Department 15,497 specimens were examined. In the Pasteur Institute 1,057 applied, of whom 342 were treated with no deaths recorded. The Registrar reports 13,204 tabulated histories.

The Training School for Nurses shows a total enrollment of 115 during the year. Of this number there were graduated 32, and to be graduated in April, 1913, 9. Senior Class of 1913, 42, Junior Class of 1913, 32.

The present Board was organized and entered upon its duties on December 18th, 1912, and had, therefore, only served two weeks when this report was made up, hence I will make no comments regarding the administration of the Hospital during the year 1912, but simply give a brief statement of the start made by the present Board in the performance of its ministrative duties.

At the time of our appointment and organization we were aware that the internal administration of the Hospital had been the subject of much adverse criticism. It had been publicly charged by those whose standing and opportunities for knowledge gave weight to their charges, that this Institution was not being efficiently conducted; that its management, not only on its medical side, but in all of its departments, were susceptible of improvement. We, therefore, considered it our duty to inform ourselves about existing conditions and see if these charges were supported by facts.

The first step which we took with this end in view was to notify a Committee of the Visiting Staff of the Hospital to appear before us at a meeting which we called for that purpose on December 20th, 1912. This Committee gave us a written communication, which I make a part of this report, one of the suggestions of the Committee being that the opinion be taken of some unbiased expert or specialist in hospital administration. The Board approved of this suggestion, and adopted the following resolution:

“WHEREAS, This Board, composed of lay members, feels the need of expert advice and assistance, especially in respect to the administration of the Hospital on its medical side, and

“WHEREAS, This Board approves of the suggestion of the Conference Committee of the Visiting Staff that a proper source from which to obtain expert assistance is from those who have made a profession of special study of the science of hospital administration.

“*Be it Resolved*, That this Board engage the services of some such specialist in hospital management to visit the Charity Hospital, familiarize himself with local conditions and the present organization of system of administration, and then to give an opinion and report upon the present conditions and system of management, and to suggest such changes, if any, in the organization or system of management in all departments as his knowledge and experience may lead him to recommend as necessary or advisable.

“*Resolved*, That the Medical Committee of this Board be authorized and instructed to put the foregoing resolution into execution.”

The report made by the Medical Committee of the Board at the January meeting of the action by it to carry the foregoing resolution into effect read as follows:

"The Committee accordingly addressed letters at once to the Superintendent or Managing Officer of the principal hospital in each of the cities of Baltimore, New York, Boston and Chicago, requesting the name and address of some competent expert in hospital management, qualified to render the services indicated in the resolution of this Board. Copies of the resolution were enclosed. A similar letter was written to Dr. Henry M. Hurd, a former Superintendent of Johns Hopkins University and a teacher and trainer of hospital superintendents. Four replies were received to these letters. Two gave the names of several specialists and two made only a single recommendation. All contained the name of Dr. S. S. Goldwater, and his was the only name contained in more than one letter.

"The Committee had already some knowledge, by reputation, of Dr. Goldwater, who is probably the best known and most active of the class of men who have made a profession or special study of the science of hospital administration. He has been for several years the Superintendent of the Mt. Sinai Hospital, New York. He is Advisory expert to the Presbyterian Hospital and to the Montefiore Home and Seaside Hospital, New York, to the Barnes Hospital of St. Louis, and the Magee Hospital of Pittsburgh, the Children's Hospital, St. Louis, the Mt. Zion Hospital, San Francisco, and the Stamford Hospital at Stamford, Conn. He is Special Advisor of the F. F. Thompson Hospital, Canandaigua, New York, of the Orange Memorial Hospital of New Jersey, of the Flower Hospital, New York, and of the Philadelphia General Hospital. He was Secretary of the Hospital Conference of New York from 1905 to 1907, and President of the American Hospital Association in 1908. In 1909 he was lecturer on hospital administration in the New York School of Philanthropy. He is a member of the Committee on Public Health and Hospitals, New York Academy of Medicine, and of the Hospital Committee, State Charities Aid Association. He is the author of numerous publications relating to Hospitals and kindred subjects.

“The Committee, therefore, entered into correspondence with Dr. Goldwater. It is pleased to report that it has been able to secure his services, and he will come to New Orleans the last of January or early in February. It is estimated that the work will occupy ten days of his time, including the time of journeying here and back. The compensation agreed upon was \$1,000.00, Dr. Goldwater to pay all his expenses.”

Dr. Goldwater arrived in New Orleans, February 4th, and on the next day began his study and investigation of conditions at the Hospital. He returned to New York on February 11th, and is now engaged in the preparation of his report, which will be sent to us on completion. We can reasonably expect that his report will not only give us the information and assistance we require but will afford valuable information and instruction to all connected with the Hospital. Until we receive this report we will not attempt to describe our impression of existing conditions, or make recommendations for the future, but after we have familiarized ourselves with the information and recommendations it contains we will energetically take up the problem of the proper organization and administration of the Hospital.

Yours respectfully,

FRANK B. HAYNE,

Vice-President, Board of Administrators
of the Charity Hospital of Louisiana.

Annual Report of the House Surgeon.

Your Excellency and Members of the Honorable Board of Administrators of the Charity Hospital, New Orleans, La.:

GENTLEMEN :

That our Hospital has continued for one more year to fulfill its function of relieving the sick and injured and afflicted, and lived up to its reputation as the noblest charity in the land, and continued to earn the place it holds in the hearts of all good Louisianians, it needs but one glance at the statistics for the past year to prove.

In every department more work was done and more patients were treated by a large margin than in any previous year. In all departments a grand total of 60,000 patients were taken care of, as against 45,000 in 1911, representing a number equal to about one-sixth of the population of our city. This, in spite of the fact that for over six months our Colored Women's Building was virtually closed for remodelling and the addition of an annex.

Yet, according to the report of the Treasurer, our expenditures for 1912 were only \$231,000.00, an increase of only \$6,000.00, or $2\frac{1}{2}\%$ over 1911.

The following are the statistics for the year with comparisons for the five preceding years :

	1908.	1909.	1910.	1911.	1912.
Remaining at beginning of year	738	782	785	819	911
Admissions	9,540	9,576	11,313	12,220	12,983
Total indoor patients	10,278	10,358	12,098	13,039	13,894
Daily average	791	797	870	972	953
Remaining at end of year..	782	785	819	911	937
Accident cases	7,433	7,922	8,550	9,240	11,106
Outdoor clinics, new patients	18,757	17,443	18,916	21,622	23,203
Consultations, outdoor clinics	78,611	74,585	98,596	105,113	109,798
Ambulance cases	1,571	1,510	1,682	1,878	2,242
Total number treated in all departments, over.....	29,000	36,000	40,000	45,000	60,000
Discharged	8,103	8,263	9,700	10,593	11,325
Died	1,393	1,310	1,579	1,535	1,632
Gross death rate, per cent.	13.0	12.6	13.0	11.77	11.75
Died within 36 hours of admission	527	433	506	480	524
Net rate after deducting same, per cent.	8.1	8.5	8.8	8.1	7.9
Deaths from tuberculosis..	269	207	265	265	271
Deaths from Bright's disease	205	188	224	169	235
Deaths from organic heart disease	116	123	155	234	172
Poisons, violence, etc.....	204	194	236	207	241
Total deaths from above causes	794	712	880	875	919
Percentage of total number of deaths	57.00	54.35	55.73	57.00	56.27
Coroner's cases	227	193	224	208	232
Operations, A. B. Miles Amphitheatre	2,895	2,890	2,798	2,880	2,765
Operations, Delgado Memorial	318	1,319	1,817	1,833
Ether anesthesia	1,448	1,725	2,228	2,785	2,856
Chloroform anesthesia	289	150	111	14	8
Other anesthetics	62	64	146	33
Spinal anesthesia	266	302	233	220	279
Local anesthesia	217	265	281	200	364
Ambulance calls, average time	28	28	23	22	23
Obstetrical cases	min.	min.	min.	min.	min.
Children born	297	320	465	428	411
Deaths	300	320	467	433	417
From Septicemia (street case)	10	11	5	14	12
	1	1	1	1

Pathological specimens examined	13,757	15,763	17,773	15,249	15,497
Number treated in Pasteur Institute	537	587	635	916	1,057
Animals' brains examined	19	6
Pharmacy, number prescriptions	44,239	61,781
Packages serum	2,625	5,590
Histories filed:

Gynecological	638	837	907	1,026	1,130
Obstetrical	766	848	965	1,102	1,083
Total	9,726	9,735	11,410	12,171	13,204
Graduates, Training School for Nurses	23	43	33	27	32

I beg to call your attention to a few of the figures just cited. Nearly all the figures for this year are higher than for the previous years, and those that are lower give but additional evidences of progress in special directions. For example, the death rates, gross and net are lower. Surely no fault is to be found with this.

The daily average, or average number of patients sleeping on the premises every day in the year, was nineteen less than the year before. But the total number treated was 855 more than the previous year. This means that we have made some effort to diminish as much as possible the number of patients who made long stays with us, or that we expedited the treatment of those that were admitted, and probably both. The lower average is also explained by the fact that for six months we admitted no one to the Colored Women's Building who could possibly be put off or otherwise cared for; the daily average during the reconstructing of this building being 893, as against 1,016 after its full occupancy. This also explains the slight decrease in number of operations in the A. B. Miles Amphitheatre, where all operations from this building were performed.

There were 17 obstetrical cases less than the previous year. This is explained by the fact that the Obstetrical Out-Door Clinic, in charge of Dr. Points, inaugurated recently, relieved the indoor

service of a large number of these cases which were cared for by Dr. Points and those working with him at their homes.

In the A. B. Miles Surgical Amphitheatre, in addition to the usual operative work done, 11,106 accident and emergency cases were treated, an increase of 20% over 1911. A new sterilizer of increased capacity has been installed in this building.

The Delgado Memorial Building, that latest specimen of modern hospital construction, and probably one of the best equipped surgical buildings of to-day, is still fulfilling the purposes intended by its donor, the late Isaac Delgado, and will be a lasting monument to his memory. The spacious fireproof galleries have added much to the comfort and welfare of its inmates.

The Milliken Memorial Building, another glorious architectural production, the expression of a loving wife's devotion to the memory of her deceased husband, has well served its purpose. For some time there has been contemplated the rearrangement of the wards of this building so as to house within it the white obstetrical department. The authorization to do this has recently been given by Mrs. Milliken, the generous donor, and its execution is but a matter of a few weeks. This will greatly increase the usefulness of this building and help relieve the crowded condition of the White Women's Building. The usefulness of this building might still further be increased, and the care of its inmates much facilitated by the addition of large rear galleries, corresponding to those of the Delgado Memorial Building.

I desire to call your particular attention to the large number of ambulance calls during the year, an increase of 20% over the previous year. Nearly all those calls have been made by the auto ambulance, the only one we possess, a few calls having been made by one of the horse ambulances that is kept in readiness for use in case of a second call coming in while the auto ambulance is out, or when the auto ambulance might be laid up for repairs.

This same auto ambulance is in grave need of overhauling and repair and cannot longer stand the wear of constant use. The cost of maintenance is not much more than it costs to feed the horses now running the second ambulance, hence it is not only a necessity but it would probably be an eventual economy to purchase an

additional auto ambulance and dispose of the two horse ambulances and the horses used with them.

The Pathological Department has been ably conducted by Dr. O. L. Pothier, Pathologist, with the assistance of Dr. M. J. Couret.

The Pasteur Institute, also under the direction of the Pathologist, has continued to increase in popularity.

The Department of Pharmacy, under the direction of Mr. J. P. Walker, Chemist, has in addition to the daily examination of the milk supplied the Hospital, filled a total number of 61,781 prescriptions, or over 35% more than the previous year.

The Sickles Fund Dispensary was located in this Department last May, and 2,883 prescriptions were filled up to December 31st, 1912.

The work of the Registration Bureau has been very efficiently and conscientiously done by our courteous and genial Registrar, Dr. G. F. Patton. I beg once more to call your attention to the importance of this Bureau as a necessary arm of the work of the Hospital, and to point out that the salary paid Dr. Patton is hardly in keeping with the services rendered by him. It is the same as was paid in 1905, when the Bureau was inaugurated, and when the work was less than half what it is to-day.

The X-Ray Department has done more work and better work this year than ever before. The new interrupterless machine has given continuous satisfactory service, and the old coil has been sent to be repaired for use for treatment purposes. This Department is not however equipped with all the apparatus that go to make up a modern X-Ray Laboratory, the work being principally confined to skiagraphic work. It would require approximately \$2,500.00 to properly equip it.

Our Training School For Nurses, under the direction of Sister Angelica and Sister Stanislaus, and the supervision of Sister Agnes, has maintained its former standard of efficiency. On December 11th, 32 of our pupils were given diplomas.

The flooring in the class room has been tiled, replacing the decayed wooden flooring, making the room more comfortable and sanitary.

Pupil Nurses are now permitted to assist the surgeon in operations. The term of service has been increased from two, to two and a half years, with semi-annual graduations, and a post-graduate course has been inaugurated to permit former graduates of this or other hospitals to secure the advantages of all the up-to-date advances in the nursing art and the medical sciences.

The Nurses' Register has become very popular with the Physicians, insuring lucrative and continued employment to our graduates.

The Legislature, at its last session, passed an Act creating a State Board of Examiners for the registering of Trained Nurses. The requirements of this Act are very high and it will become necessary, in order that our graduates shall all be eligible for registration, to increase our own requirements. This, I fear, will be a difficult if not impossible task for some time to come, if we are to keep up the present size of our classes, which is even now too small for our needs.

The Interne Staff have been prompt in the discharge of their duties as Ambulance Surgeons, faithful in the fulfillment of their general Hospital duties, and demeaned themselves in a dignified and gentlemanly manner, and commanded the respect of all associated with them.

The Visiting Staff as a whole has been very faithful in the treatment of those under their care, and have evinced an increased interest in their respective services and are to be commended for having given so much of their valuable time and labor in giving to the Hospital the benefit of their professional attainments.

Among the improvements for the year may be mentioned the addition of spacious screened galleries at the west end of the Main Building for the comfort and benefit of the tuberculosis wards.

The Colored Women's Building has been entirely renovated and its wards rearranged, and an addition built, which increases its capacity by 75 beds.

The Male and Female Out-Door Clinic Buildings have been rearranged so as to have one large waiting room on each floor, increasing the number and size of treatment rooms by 50%, thus

facilitating the treatment of patients and rendering the buildings better lighted and more sanitary.

The Clerk's Office has been entirely renovated and the floor tiled, so as to facilitate the handling of patients applying for admission into the wards or treatment in the out-door clinics.

During the month of September, I attended the Thirteenth Annual Conference of the American Hospital Association in Detroit, of which Association I became a member as a result of a resolution of your honorable body. Nearly every phase of hospital work was discussed and I gathered much information, the application of which to our own institution should be calculated to improve many of our existing evils.

I beg to call your attention to the deplorable condition of the streets surrounding the Hospital, and those radiating from it. Tulane Avenue is the only one that is smoothly paved, but the traffic on this street is so heavy that as fast as the asphalt is relaid it is dug into innumerable holes. I have made many efforts to have Villere Street paved to Canal Street, a stretch of two squares, giving us a short cut to Canal Street, but the City has no funds available at present for the purpose. The remedying of these conditions, if possible, would prove a veritable blessing.

In my last annual report I called attention to some pressing needs of this Institution, and I feel that I cannot do better than to quote verbatim that portion of the report:

“PRESSING NEEDS OF THE HOSPITAL.

“I beg to call the attention of your honorable body to the following needs of a more or less imperative nature. None of these is theoretical or impractical in character, and they are all absolute necessities if we are to continue to maintain the fair name and world-wide reputation of our Hospital, and some of them are an actual sanitary menace:

“FIRST. The plumbing in the older portions of the Hospital is antiquated and defective, and requires the earliest attention.

“SECOND. The same may be said of the heating system, which is constantly calling for repairs.

“THIRD. The present laundry building is, I believe, forty-two years old, and was amply large when built, but is totally inadequate to do the work of the Hospital of to-day, half the work now being done by patients and employees by hand.

“FOURTH. The greater number of both the male and female help have to sleep in wards with the sick. Some building or buildings should be provided for them, giving them the necessary comforts and insuring to them better health, and their removal from the wards leaving that many more beds to be occupied by patients.

“FIFTH. Last year over \$6,800* was spent for ice and electricity. The engineer estimates that an ice and electric plant can be erected for \$33,000. This would permit us to use more electricity and use the ice plant to refrigerate our morgue, a pressing need.

“SIXTH. The addition of a fourth story to our Main Building would give us room for 160 beds and relieve the crowded condition of this building.

“SEVENTH. The continuation of the third story of the White Women’s Building over its entire length would relieve the crowded condition of this building, at a cost estimated by the engineer at \$5,000.

“EIGHTH. This is the only Institution in the City that admits contagious diseases. Yet we put them in buildings with other patients, and in some cases in the same wards, for we have no special building. An Isolation Building is an absolute necessity.

“NINTH. We are also the only Institution that will admit cases of pulmonary tuberculosis. We sorely need a building especially erected for them, where they can get scientific treatment and have some hope of recovery.

“I sincerely hope that your honorable body will soon find the means of remedying these conditions. Of course, all this means the expenditure of money of an amount not now in sight. Let us hope, however, that the General Assembly will look upon us with kindly eyes and supply the deficiency as far as in their power lies;

*The figure for 1912 is \$6,519.16.

or that some richly-endowed citizen may see his way clear to come to our aid and follow the splendid example of Mr. Hutchinson, Mrs. Milliken and Mr. Delgado, and the other benefactors of this noble charity."

I am sorry to have to state that necessary as these things are, not one of them has as yet been accomplished. The General Assembly was very kind to us last May, giving us \$20,000 for renovating our plumbing system, and increasing our annual appropriation by \$31,000, but this latter has merely made up for our existing deficit, and we have been unable to make any extensive improvements.

I desire to express my appreciation of the loyal support and to testify to the increasing devotion, enthusiastic application to their labor of love, and unremitting vigilance, of Sister Agnes and her band of Sisters of Charity, who have the actual burden and responsibility, with the assistance of the pupils of the Training School For Nurses, of the actual nursing and care of our inmates, and who stand as impregnable bulwark of honesty, sincerity and moral strength that makes itself felt and its influence permeate throughout the extent of our great hospital and by every one who comes within our sphere of work.

I desire also to express my appreciation of the loyal and active assistance and co-operation of Mr. John Ponder, our Engineer; Mr. L. P. Delahoussaye, our Secretary-Treasurer; Mr. Jas. R. Leake, our Clerk, and finally, my devoted Assistants, Drs. S. W. Stafford and C. G. Cole.

In conclusion, I desire to take this opportunity of expressing to the gentlemen who composed your honorable body until a short time ago, collectively and individually, my sincere gratitude for their wise counsel, and the support and encouragement that went far to make my position a most pleasant one. I beg, moreover, to most cordially thank you gentlemen of this present Board for your kindness and courtesy during the short time that we have been associated together.

I desire to state that I both appreciate and admire the manner in which the membership of this Board has undertaken the task, as individuals and as a body, of becoming acquainted with all the

DELGADO MEMORIAL HOSPITAL.

details of this Hospital and its work. The present system of hospital management has been the object of much recent criticism. This Board has undertaken to find out as far as a lay board can what foundation there is for these criticisms and what changes, if any, should be made. You have secured the services of a man whose reputation as an expert in hospital management is unequalled and unassailed. He has finished his investigation, but I understand, has not yet submitted a written report.

I know not what his report will contain nor what his recommendations will be. But, whatever he may report, or whatever his recommendations may be, and whatever changes the Board, who has the sole and full responsibility in the matter, may eventually see fit or find it feasible to make, I wish to make it perfectly plain that I will not knowingly be considered as standing in the way of any movement or change made in the interest of progress or for the betterment of the means and facilities for the relief of the suffering sick and afflicted poor, who derive the benefits of this grandest and noblest charity; and that, furthermore, I hereby offer you my services, and the benefit of any talents that I may possess, and any experience and knowledge of the details of the workings of this Hospital that I may have acquired during a period of over 16 years' service, in the installation of any system you may, after due consideration, conscientiously believe to be the best.

Respectfully submitted,

Jos. A. DANNA, M. D.,

House Surgeon.

8473

Annual Report of the House Committee

NEW ORLEANS, La., February 18, 1913.

Members of the Board of Administrators, Charity Hospital, City:

GENTLEMEN:

We beg to submit for your consideration the following report of the House Committee:

Under the head of Improvements done during the past year we beg to report as follows:

New Annex to Colored Female Department, complete, with repairs and thorough renovation to old building, including steam heating and new plumbing throughout. The new and old buildings have both been fitted with combination gas and electric fixtures for lighting and telephone communication with all departments of the Hospital. The building is equipped with one electric elevator. This Annex has been found to greatly relieve the heretofore congested condition of that Department, and to greatly improve the former sanitary conditions. The above mentioned Annex was erected at a cost of \$23,350.00, not including furniture, etc.

A three-story gallery addition was erected in connection with Male Tuberculosis Wards, on west end of Main Building, and has been found to greatly improve the hygienic conditions of wards, as well as to relieve them of congestion during the day. The above improvement was made at a cost of \$435.00.

The old and badly worn wood flooring has been removed from the class room of the Nurses' Home, and replaced with a ceramic tile floor, at a cost of \$750.00.

The old and badly worn radiation on the second floor of the Main Building has been removed and new cast iron radiators of modern type have been installed, at a cost of \$141.57. The installation was made by Hospital Engineer.

One new material sterilizer has been installed in the A. B. Miles Amphitheatre.

The Clerk's Office has been thoroughly renovated and old wood flooring removed and replaced with ceramic tile.

One new washing machine for Female Laundry has been installed.

In order to meet with the increased demands made on both Male and Female Clinics, it was found necessary to increase the space allowed for waiting rooms. This has been done by making a redistribution of the space. These buildings have both been refitted with sanitary plumbing and connected with sewerage. Old and unapproved wiring has been removed in both buildings, and rewired, according to the Louisiana State and City Fire Prevention Bureaus.

The sleeping quarters for male help has been steam heated.

REPAIRS. All buildings have been kept in repairs, including painting and kalsomining, all of which is at present in good condition.

Owing to the great demands made on the Institution compared with that of former years, we recommend for your consideration the following much needed improvements:

The heating apparatus of the Charity Hospital was installed in the year 1872, and consists of pipe coils built on the ground. These pipe coils at present are badly worn, but have been kept in repair from year to year, as the Institution has not been in a financial condition to replace same with modern cast iron radiators. We believe this work deserving of consideration, as it costs too much to make the old system effective including the large amount of fuel necessary.

Steam lines have been extended across the street and into Ambulance House. Radiators could be installed in this building at an expense of \$750.00.

A third-story addition on west end of White Female Department would greatly relieve the congested conditions now experienced in that Department, and the additional space obtained would well pay for the expenditure.

We would recommend an Institution of this kind having its own Electric Light Plant. We have made inquiry in regard to such a plant for the Charity Hospital and find that two (2) 50 Kilo Watts, Direct Current Machines, including the wiring and switch board, would cost in the neighborhood of about \$8,000 installed. We already have the foundations to put such a plant on in the Power House. These machines would in all probability be ample to take care of all the light and power necessary for the Hospital at present, but this cost does not include any new wiring, which would have to be done in the various buildings.

The House Committee have also made investigation in regard to an Ice and Refrigeration Plant, and we find that a five-ton plant installed would approximately cost \$5,000. At present we are paying about \$3,000 a year for ice. Therefore, your Committee recommends the installation of such a plant, which we deem absolutely necessary, not only for the manufacture of ice but for refrigeration plant for the Morgue.

Your Committee would call your especial attention to Act No. 53 of 1882, which provides that a tax shall be levied on all auction sales taking place throughout the State of Louisiana, in which the Hospital is entitled to a fee from all auctioneers of $\frac{1}{2}$ of 1%; that heretofore hardly any tax has been received from auctioneers outside of the City of New Orleans. We, therefore, suggest that the Governor be requested to take up this matter with the proper authorities with a view of securing such revenue that may accrue to the Hospital from this source.

Your Committee also calls your attention to the wooden floor now in the kitchen and would recommend that bids be received for the installation of ceramic tiling.

Bids were invited during the month of January for the installation of plumbing in the Hospital, but there being some question as to the basis on which the various bids were received, it was a

matter of difficulty to ascertain positively which was the lowest bid. Under the circumstances your Committee deemed it advisable to reject all bids, revise specifications and readvertise. Since that time we find that the money appropriated by the Legislature for this purpose is not available at the present time. We prefer to wait until we are notified by the State Treasurer that the money is on hand, at which time new bids will be asked for and all parties requested to bid on a uniform basis.

We find that the Ambulance, which has been in use at the Charity Hospital for the last three years, has given excellent service and greatly reduces the time in going to and from emergency calls. It has been necessary to supplement the use of this Ambulance with one of the old horse ambulances, which had to be used at such times as calls were frequent.

We would respectfully recommend that steps be taken to provide an additional Auto Ambulance which might be used for such additional emergency calls and also which would be available at such times as the first ambulance was out of condition. The present Auto Ambulance has up to date covered some 20,000 miles, and, although we are not aware of the identity of the donor of this Ambulance, we wish to offer our thanks for having provided the Hospital with a machine of this kind, which has, no doubt, saved many lives.

CHARLES A. FARWELL,
Chairman, House Committee.

ARSENE PERRILLIAT,
ORLOFF LAKE.

Annual Report of the Medical Committee.

NEW ORLEANS, LA., February 17, 1913.

To the Board of Administrators of the Charity Hospital, New Orleans, La.:

GENTLEMEN:

This Committee has been in service for only two weeks of the twelve months which its annual report is expected to cover.

It will not undertake to deal with the period antedating its existence.

The greater part of the two months of its life has been spent in arranging for the investigation of the Hospital by a competent expert and in familiarizing itself with present conditions. In view of the fact that in a few days this Board will receive the results of the study and investigation by Dr. Goldwater of the management of the Hospital in all its departments, this Committee feels it unnecessary to make a report upon present conditions or to make any suggestions as to this future. Whatever it could say at present would have to yield to the more authoritative statements of the distinguished specialist whose report we are awaiting. That report will more than accomplish all the purposes which any report of this Committee at the present time could serve. The details of the year's work are embraced in the report of the vice-president.

Respectfully submitted,

J. P. BLAIR,

Chairman.

CHARLES A. FARWELL,

FRANK B. HAYNE.

Annual Report of the Finance Committee of the Charity Hospital of Louisiana.

NEW ORLEANS, LA., February 17, 1913.

To the Vice-President and Board of Administrators:

GENTLEMEN:

Your Finance Committee respectfully report that the accompanying statements, prepared by the Treasurer, have been duly examined and found correct. These statements give a history in detail of all the receipts and disbursements during the year 1912. They show total revenues of \$229,427.03 for 1912, as against \$261,787.69 of expenditures, showing a deficit of \$32,360.66 for the year 1912. In other words, the annual statement of the Charity Hospital's expenses shows an increase over the receipts for the year by \$32,360.66.

During the year it was necessary to meet current expenses by making a loan of \$25,500.00 from the Special Fund. These continual loans are fast exhausting this Fund. There remains to-day but a small balance of \$22,135.23.

The cash statement shows on January 1st, 1913, a balance of \$27,847.10 as cash on hand. Besides this cash balance, bonds amount to \$3,500.00 are deposited in the Commercial National Bank. The items of disbursements, as per comparative statement of receipts and disbursements, for the years 1911 and 1912, show an increase of \$120,433.53, less a decrease of \$12,854.43, making a net increase of \$107,579.10 for the year 1912. The principal increases are: Repairs, \$2,615.75; employees' wages, \$8,011.95. Training School for Nurses, \$1,547.55; marketing, \$2,308.60; fuel,

\$2,722.03; Improvements, \$28,542.75; Milk, \$859.71; groceries, \$1,576.77; meat, \$2,624.27; bread, \$880.29; medical and surgical, \$3,583.70; house furnishing, \$3,103.27; laundry, \$471.75.

The following items of receipts show increases during the past year: Hospital appropriations, maintenance of Hospital only, \$17,999.90; auction sales, \$2,864.62; Discount, \$229.63; licenses, \$2,085.00; rent, \$321.78; slaughterhouse fees, \$769.40; interest on Special Fund, \$314.10. The sum of \$34,615.00 was received from the Diamond Jubilee of the Hospital. The increase for interment contract has netted the Hospital over amount received last year \$3,810.79.

The statement of Special Fund shows a balance of \$24,086.93 to its credit after lending \$25,500.00 to the General Fund. The donations during the year show amount received, \$1,230.76, contributed by many persons and parishes.

Very little improvements have been made this year, owing to lack of funds, outside of the erection of the Annex to the Colored Female Wards, at a cost of \$28,402.50.

We regret to report that while the late Mrs. Richardson donated the sum of \$5,000 to the Charity Hospital, the said amount has not yet been received, but we hope to be placed in possession of same in the near future.

We desire to invite your attention to the contribution of \$909.75 additional from a number of colored citizens of New Orleans for the erection of an annex to the Colored Female Wards of the Hospital, to give greater capacity to the said wards, and improve the condition and comforts of the patients therein. These colored friends of the Hospital made contributions, which amount has reached \$3,577.30.

The usefulness of the Charity Hospital has been greatly extended in the past year. The number of indoor and outdoor patients has been materially increased, therefore expenses must necessarily multiply, and greater appropriations are imperatively necessary. The State must give greater appropriations to meet the additional expenses.

Respectfully submitted,

J. B. SINNOTT,
Chairman Finance Committee.

Report of Supervisor of Public Accounts.

BATON ROUGE, LA., February 5, 1913.

*To the Board of Administrators of the Charity Hospital of
Louisiana:*

GENTLEMEN:

This is to advise that this office has, at the end of each quarterly period during the year 1912, made a careful examination of the accounts of the Board, as kept by the Secretary and Treasurer, L. P. Delahoussaye.

All vouchers for receipts and disbursements were examined and verified, and I am pleased to state that a proper accounting was made of all funds received during the year.

Yours truly,

W. N. MCFARLAND,
Supervisor of Public Accounts.

Report of Directress.

NEW ORLEANS, LA., December 11, 1912.

To the Honorable Board of Administrators of the Charity Hospital:

RESPECTED GENTLEMEN:

A change in the usual Graduation Exercises this year is due to the pressing necessity felt by the School in supplying vacancies when large numbers of graduates leave.

After serious thought, and due consultation on this subject with the Medical Committee and House Officers, a plan was presented to the Board, at its last meeting, to allow semi-annual graduation, at the close of each session, and to extend the course of instruction six months; also to respond to the desire of graduates wishing to take up special work, by opening a Post Graduate Course of three to six months.

This having met with approval, we have reserved the giving of diplomas to nine of the Senior Class, who, though deserving of the honors of the Class by a successful examination, have yet three months to complete their term of two years. These will form the first Class of 1913, graduating in April.

The Training School, now in its nineteenth year of existence, is the largest on record since the inauguration of the School, numbering one hundred and fifteen pupils. The session of 1913 opens with a Senior Class of forty-two members. The Junior Class, thirty-two, to be completed from applications now on hand.

The Graduating Class of thirty-two members I now present to your Honorable Board for the diploma and medal of the School. As a Class, I take great pleasure in recommending them as worthy

of this great privilege, as I know they have applied themselves earnestly to acquire these honors by study, fidelity to duty, and loyalty to the regulations of the School. Most heartily do I appreciate the valuable aid they have given in carrying out the purposes of this noble Institution, as they have not only been faithful, but generous, kind, and sympathetic in the care of our suffering poor.

As a parting word to the graduates, I would urge them not to cease to study, as the diploma only evinces a certain amount of knowledge, which can be retained and increased only by constant effort, self-culture, compassion and charity. May they realize the beautiful words of Bailey—

“We live in deeds, not years; in thoughts, not breath;
In feelings, not in figure on a dial;
He most lives
Who thinks most, feels the noblest, acts the best.”

God bless them with health and success.

In conclusion, I extend my hearty appreciation to the Faculty of the Training School, for their valuable aid, and for the thorough course of lectures given.

To our House Surgeon and his Assistants, we also owe gratitude for their generous co-operation with the Sisters on all occasions for the welfare and success of the School.

I beg to offer to your Honorable Board the assurance of my esteem, and of the desire of the Sisters to further the interests of our noble Institution and to uphold the honor and good work of Louisiana’s great boon to suffering humanity.

Respectfully submitted,

SISTER MARY AGNES,
Directress.

Report of Chairman of Faculty.

NEW ORLEANS, LA., December 11, 1912.

*To the Honorable Board of Administrators of the Charity Hospital,
New Orleans, La.:*

GENTLEMEN:

I have the honor to present to you, as Chairman of the Faculty of Lecturers of the Charity Hospital Training School for Nurses, the Class of 1912.

The Class which leaves to-day embodies all that is most progressive and up-to-date in the modern science of nursing and will go forth to add to the glory already shed by those who for the past nineteen years have gone forth from this institution into the world to do all that scientific training and unselfish devotion to duty can do to relieve suffering, cure the sick and console the afflicted.

The class work and results of the examinations this year have been a source of pardonable pride to the Faculty, and stimulated them to an increased interest in the work of the Training School.

These 32 young ladies have labored hard during the two years just past, and have, by their diligence, perseverance and untiring efforts, in the class room as well as at the bedside of the sick, earned the reward that we ask for them at your hands, the hospital diploma and medal:

Misses May Aldrich, Anna Barret, Pauline Briant, Maud Coleman, Susie Crow, Katie Early, Bertha Freschou, Belle Hollingsworth, Ethel Kelly, Pianna Koepp, Leona Koenig, Clara Lawson, Maxime Martin, Lena Musacchia, Daisy Monlezon, Cecile Noonan, Annie O'Hara, Lucille Parmiter, Susie Pierce, Ewilina

Renaud, Della Scarbrock, Helen Schram, Ida Slade, Bessie Slade, Annie Smith, Agnes Taylor, Josie Velger, Pauline Voegtlin, Muretta Vaughn, Hazel Werner, Jeanette White, and Hallie Wright.

This has been a memorable year in the history of Trained Nursing in this State, and particularly as regards our own School. We have this day in our School 115 pupils, the largest number yet enrolled.

At the last regular meeting of our Board of Administrators a resolution was passed increasing the course from two to two and one-half years, making graduations semi-annual, and adding a post-graduate course, intended especially to permit former graduates to come back and spend three to six months with us in becoming acquainted with all the recent advances in the art of nursing, though permitting the same privilege to graduates of other schools, and giving the graduates of ten or fifteen years ago a chance to get on an equal footing in all respects with the graduate of to-day.

The semi-annual examinations will permit of the admission of pupils at different times of the year and obviate the necessity of their having to remain in the Hospital eight or nine months after graduation day to permit them to complete the full prescribed course.

I beg also to call attention on this occasion to the fact that at the last session of the General Assembly an Act was passed which has been pronounced by experts the best law for the regulation of Trained Nursing on the statute books of any State in the Union, and has raised to a high level the standard of Trained Nursing in this State, and put a higher premium on this profession. Thus a nurse registered under this Act will be sure to command respect, no matter what State she may select for the pursuit of her chosen calling.

The individual members of the Faculty of Lecturers have deserved the appreciation of your honorable body for their commendable labors in behalf of the pupils of our school.

Finally, let us express our appreciation of the work of the good Sisters of Charity, who, as the head nurses of the various departments that go to make up the Hospital, under the leader-

ship of Sister Agnes, Directress, Sister Angelica, Superintendent, and Sister Stanislaus, have done the actual training of these graduates, instructing them in every little detail, watching beside them, directing their ministrations, correcting their little mistakes, and standing as living examples of unswerving devotion to duty and unselfish self-sacrifice for the good of their suffering and needy fellow men, an example they will find ample opportunity to emulate in the fulfillment of their life work.

Respectfully submitted,

Jos. A. DANNA, M. D.,
Chairman of Faculty.

Pathological Department.

CHARITY HOSPITAL,

STATE OF LOUISIANA.

NEW ORLEANS, LA., January 29th, 1913.

To the Board of Administrators of the Charity Hospital:

GENTLEMEN:

I have the honor to submit the following annual reports of the Pathological Department and Pasteur Institute for the year ending December 31st, 1912:

During the year we examined six animals' brains.

In concluding this report I wish to thank the House Surgeon, Dr. J. A. Danna, for the facilities in running the Department, and commend the assistance given by the different students detailed to the Department during the year, also the assistance given by Dr. M. Couret, Assistant Pathologist.

Respectfully,

O. L. POTIER, M. D.,

Pathologist.

Annual Report of Chemist and Druggist.

NEW ORLEANS, LA., February 13, 1913.

Honorable Board of Administrators of the Charity Hospital of Louisiana, New Orleans, La.:

GENTLEMEN:

The department over which I preside has, during the year 1912, compounded and dispensed 60,000 prescriptions for the use of hospital patients, and 1,781 prescriptions for the Sickles Fund Commission, a grand total of 61,781 prescriptions, as compared with 44,239 prescriptions in 1911.

There were purchased during the year drugs and materials for the use of this department at a total cost of \$17,380.21, an increase of \$3,191.58 over 1911. Of this total, drugs to the amount of \$926.10 have been used in the Pathological Department, which previously did its own buying.

Twenty doses of Salvarson have been ~~not~~ prepared; and 480 samples of milk were examined and found ~~not~~ to be adulterated and to contain an average of over 4 per cent. fats, and 13 per cent. total solids, which is more than required standard of the State Board of Health.

Nearly all the United States Pharmacopeia and National Formulary preparations used in the Hospital have been manufactured in this department during the year, thus saving the Hospital very considerable expense.

On May 12, 1912, the Sickles Fund Dispensary was installed in this department. The work of this dispensary is constantly increasing, as it becomes more generally known, and we are filling to-day an average of five times as many prescriptions a day as we

did on the 1st of October, 1912, the total number to date being 2,883 prescriptions.

Hoping that this report will meet with your approval, and assuring you that I have the interest of the Hospital at heart,

Respectfully submitted,

Jos. P. WALKER,

Druggist.

MANNER OF DELIVERY.

Naturally	383
By forceps	16
By podalic version	8
By Caesarian Section	4
	411

There were six cases of twin pregnancy.

There was no case of triplets.

MORTALITY OF MOTHERS.

Of the 411 maternity cases delivered in the Hospital 12 died, a mortality of 2.9 per cent.

CAUSES OF DEATH.

Parturition Eclampsia (seven admitted in that condition)	8
Shock (one Forceps case and two of Placenta Previa)	3
Septicaemia (colored woman admitted in labor)	1
	12

The number of children born was 417.

Male	237	Delivered living	357

*LIST OF THE MORE IMPORTANT
SURGICAL OPERATIONS*

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS

In the Charity Hospital for the Year 1912.

NOTE.—Many Gynaecological Operations and Appendectomies were performed in combination, though separately enumerated.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.		
Laparotomies—						
Exploratory	4	12	16	Various.
Exploratory (Child)	1	1	Congenital Atresia of Bowel.
Exploratory	2	2	Stab Wounds of Adbomen.
Exploratory	1	1	Enterolith.
Exploratory; Some Resection of Bowel.....	5	5	Intestinal Obstruction. Intussusception.
Exploratory; Some Resection of Bowel.....	1	3	4	Intestinal Obstruction. Volvulus.
Exploratory	2	7	2	11	Malignant Growths (Various).
Exploratory	1	1	Peritonitis, General.
Exploratory	2	2	Abscess, Pelvic.
Exploratory	4	4	Peritonitis, Pelvic.
Exploratory; Adhesions Broken Up	10	1	11	Various.
Exploratory; Colostomy	1	1	Carcinoma of Rectum.
Exploratory; Talma's Operation	2	1	3	Cirrhosis of Liver.
Exploratory; Drainage	1	1	2	After Abscess of Liver.
Exploratory	6	2	8	Ectopic Gestation.

Exploratory; Salpingectomy	27	27	One Tube (Some Partial).
Exploratory; Salpingectomy	25	3	28	Both Tubes.
Exploratory; Salpingo-Ovariectomy	36	2	38	One Tube and Ovary (Various).
Exploratory; Salpingo-Ovariectomy	42	1	43	Both Tubes and Ovaries (Various).
Exploratory; Salpingo-Ovariectomy	1	1	2	Dermoid Cyst of Ovary.
Exploratory; Ovariectomy	41	41	One Ovary.
Exploratory; Ovariectomy	10	10	Both Ovaries.
Exploratory; Ovariectomy	1	1	2	Sarcoma of Ovary.
Exploratory; Ovariectomy	16	16	One Ovary (Partial Resection).
Exploratory; Ovariectomy	7	7	Both Ovaries (Partial Resection).
Exploratory; Ovariectomy	10	10	Ovarian Cyst.
Exploratory; Cysts Punctured	5	5	Small Ovarian Cysts.
Exploratory; Hysterectomy	5	5	(Complications.)
Exploratory; Hysterectomy	1	1	Intraligamentous Cyst.
Exploratory; Hysterectomy	1	2	3	Carcinoma of Uterus.
Exploratory; Hysterectomy	1	1	Uterine Polypus.
Supra-Vaginal Hysterectomy	90	11	101	Uterine Fibroid (Many with Complications).
Supra-Vaginal Hysterectomy	5	5	Salpingo-Ovaritis.
Supra-Vaginal Hysterectomy	2	2	Double Salpingo-Ovaritis.
Supra-Vaginal Hysterectomy	2	2	Intra-Ligamentous Fibroid.
Supra-Vaginal Hysterectomy	3	3	Metritis, Chronic.
Supra-Vaginal Hysterectomy	1	1	Tubo-Ovarian Abscess.
Panhysterectomy	17	2	19	Uterine Fibroid.
Panhysterectomy	5	1	6	Double Salpingo-Ovaritis (Complicated.)
Panhysterectomy	2	2	2	6	Carcinoma of Uterus.
Panhysterectomy	1	3	4	Carcinoma of Cervix.
Panhysterectomy	1	1	Prolapse of Uterus.
Panhysterectomy	1	1	Sarcoma of Ovary.
Panhysterectomy	1	1	Multiple Myoma.
Panhysterectomy	1	1	Cystic Ovaries, etc.
Panhysterectomy	1	1	Abscess, Pelvic.
Myomectomy	12	12	Myoma of Uterus.
Excision of Cyst	1	1	Round Ligament Cyst.
Excision of Cyst	2	2	Broad Ligament Cyst.
Excision Mesenteric Glands	1	1	Tuberculosis.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.					Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.	Total.	
Laparotomies—Continued.						
Ventro-Suspension	24	24	Various (In Combination).
Ventro-Fixation	5	5	Various (In Combination).
Bamm's Suspension	3	3	Various (In Combination).
Ligament Suspension	78	78	Various (In Combination).
Appendectomy	446	3	5	454	Catarrhal, Recurrent and in Complication.
Appendectomy (Including Abscesses)	39	1	9	49	Suppurative and Gangrenous.
Fecal Fistula	2	2	Conditions Improved.
Enterorrhaphy	1	1	Stab Wound of Intestines.
Resection of Bowel	1	1	Strangulated Hernia.
Resection of Bowel	1	1	Gangrene.
Incision and Drainage	1	1	Tuberculosis of Small Intestine.
Incision and Drainage	1	1	Cellulitis of Broad Ligament.
Excision of Cyst	1	1	Cyst of Broad Ligament.
Ligation of Ovarian Artery	1	1	Secondary Hemorrhage.
Splenectomy	1	1	Movable Spleen.
Splenectomy	1	1	Abscess of Spleen.
Gastrotomy	1	1	Carcinoma of Oesophagus.
Gastrotomy and Dilatation	2	2	Stricture of Oesophagus.
Gastrorrhaphy	1	1	Stab Wound of Stomach.

Gastro-Enterostomy	3	2	5	Carcinoma of Pylorus.
Gastro-Enterostomy	1	—	1	Stenosis of Pylorus.
Gastro-Enterostomy	1	—	1	Tuberculosis of Small Intestine.
Gastro-Enterostomy	1	—	1	Ulcer of Stomach (In Complication).
Cholecystotomy	10	2	2	Cholecystitis, Suppurative, etc.
Cholecystotomy	1	—	1	Billiary Fistula.
Cholelithotomy	10	1	3	Cholelithiasis.
Caesarian Section	3	—	1	Deformed Pelvis, Eclampsia, etc.
Amputations—				
Arm	2	—	1	Railroad Injury.
Arm	2	1	3	Machine Injury.
Arm	4	—	4	Gangrene.
Forearm	—	—	1	Compound Fracture.
Forearm	2	—	2	Gangrene.
Breast	7	4	5	16 Carcinoma.
Breast	2	—	2	Mastitis.
Breast	—	—	1	Tuberculosis.
Hand	—	4	4	Machine Injury.
Hand	1	—	1	Epithelioma.
Hand	—	1	1	Railroad Injury (Double).
Hand	—	1	1	Gangrene.
Toes	2	—	2	Gangrene.
Toes	4	—	4	Crush Injury.
Great Toe	1	—	1	Railroad Injury.
Great Toe	1	—	1	Gangrene.
Foot	5	3	1	9 Railroad Injury.
Foot	5	1	3	9 Gangrene.
Foot	—	1	1	Epithelioma.
Leg. Lower Third	2	5	1	1 Gunshot Wound.
Leg. Lower Third	—	2	8	Crush Injury.
Leg. Lower Third	3	5	2	Tuberculosis; Bones of Foot.
Leg. Lower Third	7	3	8	Railroad Injury.
Leg. Lower Third	—	—	11	Gangrene (Mostly Traumatic).
Leg. Lower Third	1	—	1	Malignant Oedema.
Leg. Lower Third	—	—	1	Pathological Fracture.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.		
Amputations—Continued.						
Leg. Lower Third	1	1	Necrosis of Stump.
Leg. Middle Third	1	1	Painful Stump.
Leg. Middle Third	5	5	Infected Stump.
Leg. Middle Third	2	2	Railroad Injury.
Leg. Middle Third	1	1	Gangrene, Senile.
Leg. Upper Third	1	1	2	Railroad Injury.
Leg. Upper Third	1	2	3	Sarcoma of Tibia.
Leg. Upper Third	1	1	Osteomyelitis of Tibia.
Thigh. Lower Third	1	1	2	Gangrene.
Thigh. Lower Third	1	1	Amputation Traumatic Leg.
Thigh. Middle Third	1	1	Gangrene.
Thigh at Hip	1	1	Tuberculosis.
Fingers	1	1	Infected Wound.
Fingers	1	1	Machine Injury.
Fingers	2	2	Necrosis.
Fingers	2	1	3	Crush Injury.
Fingers	1	1	Gunshot Wound.
Fingers	1	1	Gangrene.
Fingers	1	1	Cicatricial Contraction.

Disarticulations—

Hip	1			1	Sarcoma of Stump.
Shoulder	1			1	Fracture Humerus with Gangrene.
Great Toe	1			1	Neoplasm.
Little Finger	1			1	Cicatricial Contraction.

Herniotomies—

Herniotomy (2 Deaths, Intercurrent Diseases)	183	13	2	198	Inguinal Hernia (Some with other operations).
Herniotomy	11		4	15	Inguinal Hernia, Strangulated.
Herniotomy	4			4	Inguinal Hernia, Congenital.
Herniotomy	31		1	32	Inguinal Hernia, Double.
Herniotomy	5	2	1	8	Umbilical Hernia.
Herniotomy	4	1		1	Umbilical Hernia, Strangulated.
Herniotomy				5	Ventral Hernia.

Incisions (Majority with Drainage)—

Abscess	2			2	Muscles of Back.
Abscess	2			2	Lumbar (Beck's Paste).
Abscess	1			1	Arm (Osteomyelitis of Humerus).
Abscess	3			3	Arm (Infected).
Abscess	3			3	Axilla.
Abscess	4			4	Buttock.
Abscess	13	2		15	Breast (Some Tubercular).
Abscess	2			2	Multiple.
Abscess	1			1	Chest-Wall.
Abscess	4			4	Groin.
Abscess	6	2		8	Neck (Some Tubercular).
Abscess	2	1		3	Palmar.
Abscess	3	4		7	Hand (Not Palmar).
Abscess		1		1	Thumb.
Abscess	2			2	Jaw (Not Alveolar).
Abscess	2	2		4	Alveolar.
Abscess	8	5	5	18	Liver (Some Resection of Rib).
Abscess	10	3		13	Abdominal Wall.
Abscess	1	1		2	Intra-Abdominal (Not Appendiceal).

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.				Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.	
Incisions—Continued.					
Abscess	1	Gluteal Region (Tubercular).
Abscess	24	25	Peri-Rectal (Some Curetted, etc.)
Abscess	4	1	Psoas.
Abscess	1	1	Hip (Tubercular).
Abscess	1	Hip (Traumatic).
Abscess	11	3	1	Thigh (Some Tubercular; some Complications).
Abscess	1	1	Scalp.
Abscess	4	7	Leg (Various).
Abscess	6	1	Foot (Various).
Abscess	2	3	About Knee (One Peri-Patellar).
Abscess	2	2	Face.
Abscess	1	About Shoulder (Curetted and Packed).
Cyst	1	Thyro-Glossal Gland.
Cyst	1	Forearm (Curetted).
Incised and Reduced	1	Fracture of Clavicle.
Incised and Packed	1	Tumor (?) of Axilla.
Incised and Drained	3	Phlegmonous Erysipelas of Leg.
Arm	1	Osteo-Sarcoma of Humerus.
Arm	1	Lacerated and Infected Wound.

Ilium		1			1	Osteitis.
Scalp		1			1	Periostitis.
Leg; Drain-Tube Inserted		1			1	Compound Fracture.
Finger		1			1	Whitlow.
Hand				1	1	Infected Wound.
Hand		4			4	Gunshot Wounds.
Thigh		5			5	Infected Gunshot Wound.
Thigh			1		1	Infected Compound Fracture.
Hip			1		1	Tuberculosis.
Hip				1	1	Necrosis of Femur.
Hip		1			1	Gunshot Wounds.
Inguinal Glands		31	47		78	Bubo.
Foot		2			2	Infected Wound.
Foot		1			1	Necrosis.
Knee			2		2	Tuberculosis of Joint.
Knee		8	3		11	Infected Wounds (Various).
Knee		4	2		7	Pyarthrosis.
Knee		1			1	Rupture of Ligament.
Leg		1			1	Periostitis of Fibula.
Leg		2			2	Osteomyelitis.
Leg		1	1		2	Gunshot Wound.
 Excisions—						
Axillary Glands		4			4	Adenitis (Tubercular).
Cervical Glands		15	3		18	Adenitis (Various).
Cervical Glands			1		1	Carcinoma of Tongue.
Inguinal Glands		42	2		45	Various; 1 Carcinoma of Penis.
Carbuncle of Lip		1			1	
Gangrenous Tissue				1	1	Cancerum Oris.
Hematoma		3			3	Contusion of Scalp.
Cyst of Breast		1			1	Cysto-Adenoma.
Cyst of Coccyx		1			1	Dermoid.
Cyst of Face		4			4	Sebaceous.
Cyst of Neck		1			1	Sebaceous.
Cyst, Subliguinal		1			1	Ranula.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.		
Excisions—Continued.						
Cysts, Etc., of Thyroid	5	4	—	—	9	Goitre.
Adenoids	424	—	—	—	424	Mostly Combined with Enlarged Tonsils.
Cicatricial Tissue	2	2	—	—	4	Various.
Neoplasm of Arm	2	—	—	—	2	Lipoma.
Neoplasm of Abdominal Wall	1	—	—	—	1	Fibroma.
Neoplasm of Abdominal Wall	1	—	—	—	1	Sarcoma.
Neoplasm of Axilla	1	—	—	—	1	Lipoma.
Neoplasm of Breast	3	—	—	—	3	Adeno-Fibroma.
Neoplasm of Breast	7	4	—	—	11	Malignant Growths.
Neoplasm of Face	1	—	—	—	1	Lipoma of Forehead.
Neoplasm of Face	1	4	—	2	7	Carcinoma.
Neoplasm of Face	—	1	—	—	1	Sarcoma.
Neoplasm of Groin	1	—	—	—	1	Lipoma.
Neoplasm of Groin	—	1	—	—	1	Sarcoma.
Neoplasm of Gum	—	1	—	—	1	Sarcoma.
Neoplasm of Scalp	—	1	—	1	2	Sarcoma.
Neoplasm of Thigh	1	—	—	—	1	Granuloma.
Neoplasm of Thigh	1	—	—	—	1	Lipoma.
Neoplasm of Thigh	1	—	—	—	1	Epithelioma.
Neoplasm of Thigh	—	1	—	—	1	Osteo-Sarcoma of Femur.

Neoplasm of Leg	2	2	Lipoma.
Neoplasm of Leg	1	1	Sarcoma.
Neoplasm of Leg	1	1	Epithelioma.
Neoplasm of Lip	4	2	1	7	Epithelioma (1 Plastic).
Neoplasm of Lip	1	1	Traumatic Growth.
Neoplasm of Neck	1	1	2	Carbuncle.
Neoplasm of Neck	1	1	Carcinoma.
Neoplasm of Oesophagus	1	1	Carcinoma.
Neoplasm of Orbit	2	2	1 Carcinoma; 1 Sarcoma.
Neoplasm of Parotid Gland	1	1	
Neoplasm of Maxilla Inferior	1	1	2	Carcinoma.
Neoplasm of Maxilla Inferior	1	1	2	Sarcoma.
Neoplasm of Maxilla Superior	1	1	Sarcoma.
Neoplasm of Hand	2	2	Epithelioma.
Neoplasm of Larynx	1	1	Epithelioma.
Neoplasm of Back	2	1	3	Lipoma.
Neoplasm of Shoulder	4	4	Lipoma.
Neoplasm of Nose	3	1	4	Epithelioma.
Neoplasm of Nose	1	1	Sarcoma.
Neoplasm of Sacro-Coccygeal	1	1	Sarcoma.
Neoplasm of Jaw	2	2	Epithelioma.
Neoplasm of Rectum	4	4	Polypus.
Neoplasm of Rectum	1	1	2	Carcinoma.
Nevus of Back, etc.	3	3	
Callosity of Foot	1	1	
Tuberculoma of Sacrum	1	1	
Tuberculous Mass in Axilla	1	1	
Necrosed Tissue	1	1	Ulcer Trophic of Foot.
Granuloma of Knee	1	1	
Ganglion of Hand	1	1	
Fissure of Anus	1	1	Old Peri-Rectal Abscess.
Nails of Both Great Toes	1	1	Onychauxis.
Nails of Toes	1	1	Lacerated Wound.
Nail of Thumb	1	1	Infected Wound.
Housemaid's Knee	1	1	

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.				Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.	
Excisions—Continued.					
Rudimentary Digit	1	1 Congenital Malformation of Hand.
Tonsil (Doubles Counted as One)	304	304 Hypertrophy, etc.; (Many with Adenoids).
Varicose Veins	5	11	16
Polypus	7	7 Nasal.
Papilloma of Face	2	1
Keloid of Abdominal Wall	1	1
Specimen for Examination	1	1 Sarcoma of Lower Jaw.
Resections, Osteotomies and Sequestrotomies—					
Bones of Ankle	1	1 Compound Fracture.
Bones of Ankle	1	1 Tuberculosis.
Bones of Ankle	1	1 Necrosis.
Bones of Ankle	1	1 Osteitis, External Malleolus.
Clavicle	1	1 Periosteal Abscess.
Clavicle	1	1 Vicious Union.
Nasal Bones; Exploratory	1	1 Sarcoma.
Frontal Sinus	1	1 Frontal Sinusitis.
Maxillary Sinus	4	2	6 Maxillary Sinusitis.
Deflected Septum	6	1	7 Sub-Mucous Resection.
Turbinates	8	8 Rhinitis, Hypertrophy, etc.

Metacarpal Bones	2				2	One Periostitis; One Necrosis.
Metacarpal Bones	1	1			2	Gunshot Wounds.
Humerus	1	1			2	Non-union.
Humerus		2			2	One Osteomyelitis; One Tuberculosis.
Humerus	2	2			4	Necrosis.
Humerus	1				1	Gunshot Wound.
Humerus, Transplantation of Bone	1				1	Compound Fracture.
Humerus, Transplantation of Bone	2	2			4	Compound Fracture.
Humerus, Head of	1				1	Exostosis.
Humerus, Head of		1			1	Chronic Dislocation.
Bones of Pelvis	2				2	Necrosis (1 Ilium, 1 Ischium).
Elbow		1			1	Tuberculosis.
Radius	2				2	Necrosis.
Radius, Transplantation of Bone	1	1			2	Gunshot Wound.
Radius	1				1	Vicious Union.
Radius, Removal of Fragments, etc.	1				1	Compound Fracture.
Radius and Ulna		1			1	Vicious Union.
Ribs	2	3		2	7	Abscess of Liver.
Ribs		1			1	Osteomyelitis.
Ribs		2			2	Emphysema.
Ribs		1			1	Necrosis.
Ribs		1			1	Sarcoma of Axilla.
Tibia	1				1	Vicious Union.
Tibia		1			1	Infected Wound.
Tibia	1				1	Osteoma.
Tibia	12	13			25	Osteomyelitis (Some in Combination).
Tibia		3			3	Periostitis.
Tibia, Transplantation of Bone	1				1	Compound Fracture.
Tibia	5	6			11	Necrosis.
Tibia	2				2	Exostosis.
Tibia and Fibula		2			2	Vicious Union.
Tibia and Fibula	1				1	Unhealed Stump.
Fibula	1				1	Necrosis.
Fibula	1				1	Osteomyelitis.
Femur	5				5	Osteomyelitis.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.				Diagnosis. Remarks.	
	Cured.	Improved.	Stationary.	Died.		
Resections, Osteotomies and Sequestrotomies—						
Continued—						
Femur	1	1	Compound Fracture (Old).	
Femur	1	1	Tuberculosis.	
Femur	3	2	5	Necrosis.	
Maxilla Inferior	6	4	10	Necrosis.	
Maxilla Inferior (Condyles)	1	1	Ankylosis.	
Maxilla Inferior	2	2	Osteo-Sarcoma.	
Maxilla Superior and Inferior; Specimen for Examination	1	1	1	Sarcoma.	
Maxilla Superior	1	1	Necrosis.	
Os Calcis	1	1	Carcinoma.	
Os Calcis	1	1	Exostosis.	
Os Calcis	1	1	2	Tuberculosis.	
Os Calcis	1	1	Fracture.	
Astragalus	1	1	2	Necrosis.	
Tarsal Bones	1	1	Necrosis.	
Metatarsal Bones (Partial Resection)	2	2	4	Necrosis.	
Metatarsal Bones (Two Removed)	1	1	Necrosis.	
Great Toe; Phalanx	1	1	Necrosis.	

Great Toe; Phalanx Removed					1	Lacerated Wound.
Sternum	1				1	Tuberculosis.
Ulna	2				2	Necrosis.
Ulna, Head		1			1	Infected Wound of Elbow.
Ulna, Wiring Fragments	1				1	Vicious Union.
Semilunar Cartilage	1				1	Dislocation.
Plantar Resection of Tarsus		1			1	Railroad Injury.
Knee Joint, Arthrectomy and Cast		2			2	Genu Valgum.
Knee Joint, Arthrectomy and Cast	2	1			3	Genu Varum.
Osteoclasis—						
Forcible Separation		1			1	Ankylosis of Jaw.
Manual Force; Casts Applied		1			1	Double Genu Valgum.
Manual Force; Casts Applied	3	1			4	Double Genu Varum.
Manual Force; Casts Applied	3	3			6	Pes Equino-Varus.
Manual Force; Cast Applied		1			1	Pes Planus.
Adhesions Broken Up	1				1	Ankylosis of Knee.
Correction by Splints	1				1	Green Stick Fracture of Radius.
Curettages (Many Packed)—						
Old Sinuses	17	5			22	Various.
Nasal Bones		1			1	Necrosis.
Bones of Ankle	1	1			2	Tuberculosis.
Tibia and Fibula		1			1	Painful Stump.
Tibia	4				4	Necrosis.
Tibia	1				1	Infected Wound.
Hip		2			2	Tuberculosis.
Maxilla Inferior	3	2			5	Necrosis.
Maxilla Inferior		1			1	Sarcoma.
Metatarsal Bones		1			1	Tuberculosis.
Metatarsal Bones Curetted and Adjusted.	1				1	Compound Fracture.
Ulcer of Arm	1				1	
Femur	1				1	
Great Toe	2				2	
Rectal Ulcers	3	7			10	Suppurative Osteitis. One Necrosis; One Infected Wound.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.		
Gynaecological—						
Aspiration	3	3	Pelvic Abscess.
Alexander's Operation	5	5	Retroversion of Uterus.
Amputation of Cervix	33	1	34	Various.
Cauterization, etc.	1	5	3	9	Carcinoma of Cervix.
Cauterization	1	1	Erosion of Cervix.
Cauterization	1	1	Keloid of Vagina.
Dilatation of Os Uteri, etc.	1	1	Sterility.
Excision	5	5	Caruncle of Urethra.
Excision	2	2	Infected Vulvo-Vaginal Glands.
Excision	1	1	Cyst of Vagina.
Excision	3	3	Keloid of Labia.
Excision	5	5	Venereal Warts.
Excision	1	1	Hypertrophied Clitoris.
Excision, Labia Majora	1	1	Syphilitic Ulceration.
Excision	3	3	Uterine Polypus.
Incision	4	3	7	Abscess, Vulvo-Vaginal.
Incision	19	3	22	Abscess, Pelvic.
Incision	1	1	Bubo.
Cauterization (Some Curetted)	11	17	2	30	Chancroids of Vulva (Deaths, Septicaemia).

Cauterization	1				1	Abscess of Vulva.
Cauterization	1				1	Ulcer of Cervix.
Curettage, Uterine	225				225	Endometritis (Many with Other Operations).
Curettage, Uterine	21	2		1	24	Puerperal (Death, Eclampsia; Forceps).
Curettage, Uterine	5				5	Menorrhagia.
Curetted and Plug Inserted		1			1	Undeveloped Uterus.
Curetted	1				1	Umbilical Fistula, etc.
Curetted and Cauterized		2	1		3	Carcinoma of Cervix.
Curetted and Cauterized	1				1	Gumma, Peri-Rectal.
Manual Removal	13		1		14	Placenta, etc. (Incomplete Abortion).
Colporrhaphy	18				18	Various (Besides Those Otherwise Noted).
Perineorrhaphy (Some Plastic)	83	1		1	85	Various (Besides Those Otherwise Noted).
Perineorrhaphy with Colporrhaphy	17				17	(Besides Those Otherwise Noted).
Trachelorrhaphy	32				32	(Besides Those Otherwise Noted).
Trachelorrhaphy with Perineorrhaphy	60			1	61	(Besides Those Otherwise Noted).
Myomectomy	5				5	Small Fibroids.
Recto-Vaginal Fistula	2	2		1	5	(Death from Septicaemia).
Vesico-Vaginal Fistula	7	1			8	(Some in Combination).
Cystopexy		1			1	Cystocele.
Urethra Shortened		1			1	Incontinence of Urine.
Plastic		1			2	Congenital Atresia of Vagina.
Vaginal Hysterectomy	3	1			4	Procidentia.
Vaginal Hysterectomy	1				1	Carcinoma of Cervix.
Vaginal Hysterectomy	2				2	Fibroids.
Vaginal Hysterectomy	1				1	Laceration.
Vaginal Incision	19			3	22	Abscess, Pelvic.
Vaginal Fixation	2				2	
Vaginal Suspension	1				1	
Watkin's Operation	4	1			5	Retroversion of Uterus.
Genito-Urinary—						
Partial Amputation of Penis	1				1	Gunshot Wound.
Partial Amputation of Penis	1				1	Chancroids.
Partial Amputation of Penis	5	1			6	Epithelioma.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.					Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.	Total.	
Genito-Urinary—Continued.						
Adhesions Broken Up	24	24	Adhesions of Glands.
Aspiration	1	1	Hematocele.
Aspiration (Some Injected)	19	3	22	Hydrocele.
Cauterization	1	1	Growth of Bladder.
Cauterization (Many Curetted)	36	40	3	79	Chancroids (1 Death, Nephritis Chronic). (Numerous; Number Not Noted).
Cauterization Venereal Warts	Phimosis (Mainly), etc.
Cauterization (Many in Combination)	216	216	Stricture (Numerous; Number Not Noted).
Dilatation (Many in Combination)	Phimosis.
Dorsal Slit	1	1	Stricture.
External Urethrotomy	35	8	43	Stricture with Extravasation.
External Urethrotomy	1	1	1	3	Abscess, Peri-Urethral.
External Urethrotomy	7	7	Fistula of Urethra.
External Urethrotomy	2	2	Rupture of Urethra.
External Urethrotomy	1	1	Spermatocele.
External Urethrotomy	1	1	Abscess of Scrotum.
Incision and Drainage	3	3	Multiple Extravasation.
Incision and Drainage	2	2
Incision and Drainage	1	1	Hematocele.

Incision and Drainage		1		1	Rupture of Bladder with Peritonitis.
Internal Urethrotomy	5	4		9	Stricture, etc.
Hydrocele of Tunica Vaginalis	30	2		32	(Some Radical).
Hydrocele of Cord	2	—		2	
Nephrotomy	2	—		2	Nephrolithiasis.
Nephrectomy	—	—	1	1	Tuberculosis of Kidney.
Nephrectomy	1	4	—	5	Abscess, Peri-Nephritic.
Nephrectomy	3	—	—	3	Pyonephrosis.
Nephropexy	5	1	—	6	Nephroptosis.
Orchidectomy	7	2	—	9	Various.
Orchidopexy	6	—	—	6	Undescended Testicle.
Orchidopexy	—	1	—	1	Gumma of Testicle.
Orchidopexy	—	2	—	2	Tuberculosis.
Perineal Prostatectomy	—	4	2	6	Hypertrophy of Prostate.
Suprapubic Prostatectomy	11	17	2	30	Hypertrophy of Prostate.
Suprapubic Prostatectomy	—	1	—	1	Carcinoma of Prostate.
Suprapubic Cystotomy	6	3	1	10	Cystitis Chronic, etc.
Suprapubic Cystotomy	—	1	—	1	Stricture of Urethra.
Suprapubic Cystotomy	3	—	1	4	Vesical Calculi.
Suprapubic Cystotomy	—	—	1	1	Contracted Bladder.
Urethrorrhaphy	1	—	—	1	Multiple Fistula of Urethra.
Urethrorrhaphy	1	—	—	1	Gunshot Wound.
Plastic Work	1	—	—	1	Lacerated Wound of Scrotum.
Suturing, etc.	2	1	—	3	Hypospadias.
Varicocele	17	2	—	19	
Eye—					
Cataract	16	13	—	29	Mostly Senile. A Few Congenital.
Enucleation of Eye	18	6	—	24	Various.
Iridectomy	1	5	1	7	Various.
Tenotomy Internal Rectus	1	—	—	1	Converging Strabismus.
Excised	—	1	1	2	Carcinoma.
Excised	—	—	—	2	Glioma (One Double).
Excised	1	—	—	1	Lachrymal Cyst.
Plastic Work	—	2	—	2	Ectropion.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.				Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.	
Eye—Continued.					
Sutured	1	1 Wound of Sclera.
Pterygium	2	1	3 McReynold's Operation.
Miscellaneous—					
Aspiration	3	3 Hematoma.
Aspiration	1	2	3 Hemothorax.
Aspiration	...	4	4 Hydrothorax, etc.
Aspiration	...	1	1 Traumatic Hemarthrosis Knee.
Aspiration	...	2	2 Cold Abscess of Hip. Formalin Injected.
Aspiration	1	18	19 Knee (Various; some with Formalin Injection).
Aspiration	4	7	11 Empyema (Some with Formalin Injection).
Aspiration	...	1	1 Abscess of Liver.
Aspiration	...	1	1 Gunshot Wound of Side.
Aspiration	...	2	2 Otitis Media Suppurative.
Aspiration	1	1 Tumor of Groin.
Attempted Reduction by Extension	Fracture of Vertebra.
Cast Applied (Also many in Clinics)	22	20	42 Fracture of Leg.

Cast Applied	9	20	29	Fracture of Humerus.
Cast Applied	28	24	52	Fracture of Femur (Some Gunshot).
Cast Applied	1	1	Old Green-Stick Fracture of Forearm.
Cast Applied	1	1	Infantile Paralysis.
Cast Applied	1	1	Talipes Calcaneus.
Cast Applied	1	1	Knee after Osteotomy for Ankylosis.
Cast Applied	1	1	Knee, Tuberculosis.
Cauterization	2	2	Carcinoma of Face.
Cauterization	1	1	Ulcer of Arm.
Cauterization	3	7	10	Ulcer of Rectum.
Cauterization	3	2	5	Fissure of Anus.
Cauterization	5	5	Condylomata.
Craniotomy (Some Exploratory)	11	8	25	Fracture of Skull, etc.
Craniotomy	1	1	Undeveloped Cerebrum.
Craniotomy	1	Neoplasm Cerebral.
Craniotomy	2	3	Periostitis of Frontal Bone.
Dilatation	1	1	Stricture of Oesophagus.
Dilatation	8	6	14	Stricture of Rectum (Some with Ulcers).
Destruction of Sphincter	1	1	Prolapse of Rectum.
Resection of Rectum	1	1	Tuberculous Area.
Resection of Rectum	1	1	Prolapse.
Endoaneurysmorrhaphy (Matas)	1	1	Popliteal Aneurysm.
Endoaneurysmorrhaphy (Matas)	2	2	4	Femoral Aneurysm.
Injection of Boiling Water	2	2	Angioma.
Injection of Alcohol (Obturator Nerve)	1	1	Spastic Paraplegia.
Injection of Alcohol (Sciatic Nerve)	2	2	Sciatica.
Injection of Bismuth Paste	1	1	Tuberculosis of Pelvis.
Injection of Osmic Acid	1	1	Trifacial Neuralgia.
Injection of Formalin in Glycerine	1	1	3	Pyarthrosis of Knee.
Injection of Salvarsan	(Numerous; Number Not Noted.)
Dislocation of Ankle	2	4	6	Reduced.
Dislocation of Elbow	1	4	5	Reduced.
Dislocation of Great Toe	1	1	Reduced.
Dislocation of Hip	1	1	Reduced.
Dislocation of Knee	1	1	Reduced.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.				Diagnosis. Remarks.
	Cured.	Improved.	Stationary.	Died.	
Miscellaneous—Continued.					
Dislocation of Patella	1	1 Reduced.
Dislocation of Shoulder	4	4 Reduced.
Dislocation of Thumb	1	1 Reduced.
Dislocation of Wrist	1	1 Reduced.
Fistula in Ano (Some Combined)	74	27	1	102 Incised, Excised, Curetted, etc.
Foreign Body (Canula)	1	1 Removal from Bronchus.
Foreign Body (Cockle-Burr)	1	1 Removal from Larynx (Also Tracheotomy).
Foreign Body (Pin)	1	1 Removal from Larynx.
Foreign Body (Bullet)	1	1 Removal from Leg.
Foreign Body (Bullet)	2	2 Removal from Knee.
Foreign Body (Bullet)	3	3 Removal from Thigh.
Foreign Body (Bullet)	1	1 Removal from Back.
Foreign Body (Bullet)	1	1 Removal from Thorax.
Foreign Body (Piece of Gold Foil)	1	1 Removal from Sinus of Head.
Foreign Body (Wire)	1	1 Removed from around Patella.
Foreign Body (Knife-Blade)	1	1 Removed from Back.
Foreign Body (Fragment of Steel)	1	1 Removed from Thigh.

Foreign Body (Splinter)	4	1	5	Removed from Foot; Death from Tetanus.
Foreign Body (Needle)	4	4	4	Removed 3 from Foot; 1 from Hand.
Foreign Body (Lane's Plates)	1	1	1	Removed from Old Fractures of Leg.
Hemorrhoids Removed	111	26	137	Ligation, Clamp and Cautery, etc.
Imperforate Anus	1	1	2	Radical Operation.
Ligation of Ext. Carotid and Sup. Thyroid	1	1	Carcinoma of Tongue and Glands.
Ligation of Ext. Carotid and Subclavian	1	1	Sarcoma of Neck.
Ligation of External Carotid	1	1	Carcinoma of Tongue.
Ligation of Both Carotids	1	1	Carcinoma of Tongue.
Ligation of Superior Thyroid	2	2	4	Goitre.
Ligation of Internal Saphenous Vein	1	1	2	Varicose Veins.
Laminectomy	1	1	Gunshot Wound of Spine.
Laminectomy	1	1	Spina Bifida.
Laryngectomy	1	1	Epithelioma of Larynx.
Mastoid Operation	18	1	20	Mastoiditis, etc.
Mummery Operation	1	1	Prolapse of Rectum.
Neurectomy, Infra-Orbital	2	2	Neuralgia.
Plastic Operation, Hand	1	1	Gunshot Wound.
Plastic Operation after Burns	9	3	12	Various.
Plastic Operation	4	2	6	Hare-Lip (Some also for Cleft Palate).
Plastic Operation	1	1	Repair of Nose.
Plastic Operation	3	1	4	Cicatricial Deformity, Various.
Plastic Operation	1	1	2	Hand, Syndactylism.
Plastic Operation	1	1	Palmar Tendons.
Phlebectomy	1	1	Phlebitis.
Plates Applied	8	1	9	Fracture of Leg.
Skin Graft	20	8	1	29	Ulcer; Various.
Skin Graft	4	5	9	Burns; Various.
Skin Graft	4	2	6	Infected Stump; Lacerated Wounds, etc.
Skin Graft	1	1	Denuded Area of Breast.
Sphincter Repaired	2	2	Laceration of Perineum.
Staphylorrhaphy (Some Plastic)	7	5	12	Cleft Palate.
Staphylorrhaphy; Wiring	2	2	Cleft Palate.
Suturing Capsule	8	8	Fracture of Patella.
Suturing Sundry Wounds, etc.	(Too Numerous and Varied to Enumerate.)

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation.	Result.				Diagnosis.	Remarks.
	Cured.	Improved.	Stationary.	Died.		
Miscellaneous—Continued.						
Tenorhaphy; Tendon Transplanted	1	2	—	—	3	Various.
Tenotomy and Redressment	—	1	—	—	1	Talipes Equinus.
Tenotomy and Redressment	—	1	—	—	1	Infantile Paralysis.
Tenotomy and Redressment	1	—	—	—	1	Ankylosis of Finger.
Tenotomy and Redressment	—	1	—	—	1	Ankylosis of Ankle.
Tenotomy and Redressment	3	8	—	—	11	Talipes Equino-Varus.
Tendon Transplanted; Art. Silk Ligament.	—	1	—	—	1	Talipes Equino-Valgus.
Tendon Transplanted; Art. Silk Ligament..	1	1	—	—	2	Talipes Equino-Varus.
Thoracotomy	7	12	2	—	21	Empyema (Various).
Thoracotomy	1	—	—	—	1	Foreign Body (Drainage Tube).
Tracheotomy	—	1	2	—	3	Neoplasm of Larynx.
Tracheotomy to Aid Removal of Burr.	1	—	—	—	1	Foreign Body in Larynx (Above Mentioned).
Thyroidectomy	5	4	—	—	9	Various.
Staples Applied	—	1	—	—	1	Compound Fracture of Tibia.
Wiring Fragments	2	—	—	—	2	Compound Fracture of Leg.
Wiring Fragments	1	—	—	—	1	Compound Fracture of Humerus.
Wiring Symphysis	1	—	—	—	1	Fracture of Maxilla Inferior.

CHARITY HOSPITAL
REPORT OF THE RECORD ROOM
FOR 1912

REPORT OF RECORD ROOM FOR THE YEAR 1912.

N. B.—These tables show the number of cases actually filed in the Record Room during the year. Each case is filed under its principal diagnosis, though death may occur from a complication, as shown by notes.

MEDICAL DIVISION.

Classification and Diagnosis.	Totals.			Cured.		Improved.		Stationary.		Died.		
	White.	Colored.	Total.	White.	Colored.	Total.	White.	Colored.	Total.	White.	Colored.	Total.
BLOOD, Diseases of—												
Anaemias.												
(Primary.)												
Pernicious	2	2	2	2
Simple	3	3	1	1	1	1
Splenic	2	2	2	1	1
Chlorosis	2	2	2	2
(Secondary.)												
Pernicious	2	2	1	1	1
Simple	4	2	6	1	1	3	2	5
Leukaemia	6	2	8	4	1	5	2
												3

CIRCULATORY SYSTEM, Diseases of—

Arteries.

Aneurysm of Aorta	14	30	44	5	8	13	5	15	20	4	7	11
Aneurysm of Common Cartoid	1	1	1	1
Aneurysm of Subclavian	2	2	1	1	1	1
Aortitis	1	1	1	1
Arterial Sclerosis, General	53	11	64	23	4	27	17	3	20	13	4	17

Heart.

Congenital Malformation	1	1	1	1
Endocarditis, Acute, Infective	2	2	2	2

Myocardial Diseases.

Dilation, Acute, Cardiac	1	1	1	1
Dilatation, Chronic, Cardiac	1	1	1	1
Hypertrophy, Cardiac	1	2	3	1	1	1	1	1	1	1	1
Myocarditis, Chronic	2	4	6	1	1	2	1	2	3	1	1	1

(Neuroses.)

Angina Pectoris	1	1	2	1	1	2
Palpitation, Cardiac	1	1	1	1
Valvular Disease, Chronic	168	244	412	94	119	213	24	20	44	50	105	155

Pericardium.

Pericarditis, Acute	1	2	3	1	1	2	2
---------------------------	---	---	---	-------	-------	-------	-------	-------	---	-------	---	-------	---	---

DIGESTIVE SYSTEM, Diseases of—

Intestines and Appendix.

Appendicitis, Catarrhal	20	8	28	4	4	12	8	20	4	4
Appendicitis, Recurrent	11	4	15	5	3	8	6	1	7

REPORT OF RECORD ROOM FOR THE YEAR 1912, MEDICAL DIVISION—Continued.

Classification and Diagnosis.	Totals.			Cured.		Improved.		Stationary.		Died.		
	White.	Colored.	Total.	White.	Colored.	White.	Colored.	White.	Colored.	White.	Colored.	Total.
DIGESTIVE SYSTEM—Continued.												
Appendicitis, Suppurative	2	2	4									2
Appendicitis, Gangrenous	3	3	6									3
Constipation, Acute	7	9	16	6	7	13	1	2	3			
Constipation, Habitual	32	11	43	9	1	10	18	10	28	5		5
Colitis, Non-Specific	33	8	41	17	2	19	13	5	18	3	1	4
Colitis, Ulcerative	3	3	6	2	2	1	1	1	1			
Enteritis, Acute	29	7	36	23	5	28	3	2	5	1	1	2
Enteritis, Chronic	8	2	10	3	1	4	2	1	3	1	1	2
Entero-Colitis, Adults	6	6	12	3	6	9						3
Entero-Colitis, Children	26	7	33	6	1	7	1		1	2	2	19

Still-Born Females	3	21	24	3	21	24		
NOT BORN IN HOSPITAL—																							
Detained with Mothers, etc.	23	11	34	23	11	34		

Note as to Deaths in Maternity Cases.—Of the 411 Maternity Cases delivered in the Hospital, twelve died. Of these only one, a negress admitted in labor, developed Puerperal Septicaemia. Of the eight fatal cases of Parturition Eclampsia, seven were admitted in that condition; one died of shock following Caesarian Section. (The three other women subjected to Caesarian Section recovered.) Two Placenta Previa cases and one very difficult Forceps case succumbed to shock.

Note as to Duplicate Histories of New Born Infants.—Infants delivered alive at or near term are technically "cured." Of those thus recorded in 1912, ten subsequently died from intercurrent causes and are registered as deaths under appropriate diagnoses, viz: Pneumonia Broncho, 2. Atelectasis Pulmonum, 2. Infarction Pulmonary, 1. Congenital Syphilis, 1. Congenital Malformation of Heart, 1. Spina Bifida, 1. Rupture of Liver, 1. Malnutrition, 1.

To ascertain the actual net total of cases, the number of Duplicate Histories is subtracted from the gross total, as in the subjoined recapitulation for the year.

RECAPITULATION FOR THE YEAR 1912.
